

Bottle Unscrambler

The machine is suitable for unscrambling polyester bottles, make the bottles in a straight line, and then vacuum convey belt will transit the bottles according to the production line requirement.

Character: PLC program controlled, the unscrambling speed will be displayed digitally; Running automatically in high speed; easily be connected to the filler or filling production line;

Model	LP-1	LP-2	LP-3
Diameter (mm)	2450	2600	3000
Producing Capacity(B/H)	8000-10000	12000-15000	18000-24000
Gas Source Pressure (Mpa)	0.7	0.7	0.7
Gas Consuming Volume (M ³ /Min)	0.4	0.6	0.8
Suitable Bottle Type (mm)	Bottle Diameter Φ 50- Φ 90; Height of Bottle 150-290		
Main Motor Power (kW)	1.5	2.2	4
Weight (kg)	3000	4000	6000
Dimension(mm)	3100*2450*2200	3300*2600*2200	3700*3000*2200
